## **CVSI offers network-enabled Access Control Solutions**

April 18, 2008

Raleigh, NC – Carolina Video Security, Inc. (CVSI), a North Carolina based security systems integrator, is pleased to announce it has been appointed the North Carolina Certified Channel Partner for PCSC, Inc., a leading world-wide provider of access control systems.

PCSC develops and manufacturer's non-proprietary access control solutions supporting nearly all forms of access control media – proximity cards, smart cards, key fobs and biometric identification. PCSC controllers and software are scalable from a single door to enterprise-class solutions.

"To have a secure facility that still enables a certain freedom of access, you have to combine positive identification with quick and reliable control systems", said Brad Silvernail, President of CVSI. "A physical key or a short PIN number that can be passed from person to person is not positive identification. With PCSC products we can now implement an affordable system that allows you to easily apply the level of authentication appropriate for your business, school, or other facility."

### About PCSC –

PCSC is a leading supplier of products and services for electronic access control and facility management applications in domestic and international markets. PCSC also offers sophisticated access control management software, integrated video badging, CCTV control, alarm graphics, elevator control and video event recording. PCSC is a subsidiary of TTIK, Inc., and has been in business since 1983. Visit [www.1pcsc.com](http://www.1pcsc.com) for more information.

### About CVSI –

Carolina Video Security, Inc. (CVSI) provides, installs and maintains commercial and industrial physical security systems including advanced surveillance, intrusion and access control solutions. We solve challenging design, environmental and networking requirements and employ the most advanced -- proven and reliable -- technologies to help protect your employees, facilities and operations.
