JUDICIAL VIDEO CONFERENCING SOLUTIONS

CVSI's Judicial Video Conferencing Solution (JVCS) is designed to provide courts, law enforcement and corrections facilities with a unique communications capability that increases safety, saves money and significantly cuts processing time.

Video conferencing is approved by the NC AOC for first appearances in lieu of prisoner transport to District and Superior Courts.

With today's greater emphasis on security and increased fuel costs, video conferencing is now an essential tool in judicial, legal and penal environments.

CVSI's JVCS solution is based on Polycom, the world leader in video conferencing technology. CVSI can provide your agency or institution with effective on-demand two-way audio and video communications.

Video conferencing solutions have been used in the judicial, legal and penal environment for a variety of applications such as:

- Video arraignments, warrants and parole board hearings;
- Video-enabled courtroom presentations that include remote expert witnesses;
- Remote testimony by specialists,

inmates, and officers;

- Psychiatric evaluations and consultations;
- Rehabilitative distance learning programs;
- Meetings between inmates and legal counsel or government representatives;
- Judicial consideration of appeals and visitation;
- Remote Video Visitation.

Our judicial video conferencing system leverages the latest technology for high quality audio and video using minimum network bandwidth. In many cases, video conferencing calls can be placed over existing network resources so that there are no additional bandwidth costs. Integrated encryption technology provides complete end-to-end security on every call.

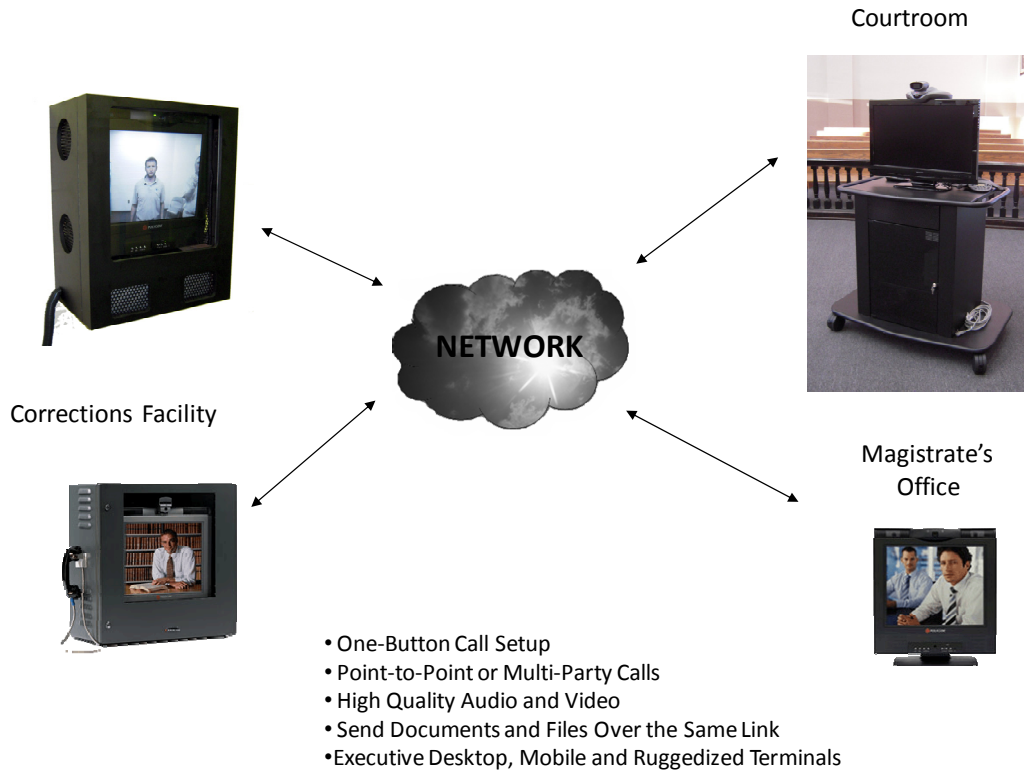

By implementing and supporting industry standard IP networking and video conferencing protocols, JVCS enables calls to virtually any other appropriately equipped location. Pre-programmed directories make call setup and call management simple and easy with virtually no training.

Video conferencing terminal equipment can be permanently installed, mounted on mobile carts for flexibility, or secured in ruggedized enclosures for any environment.

Reduce risk, save time and money—you make the call—over a CVSI Judicial Video Conferencing Solution.

- **Reduce the Risks of Prisoner Transport**
- **Offset the Rising Costs of Staff, Vehicles and Fuel**
- **Block Avenues of Contraband into Penal Facilities**
- **Maintain Timely Compliance with First Appearances, Bond Hearings and other Essential Judicial Hearings**

ABOUT CVSI

Our Company

Carolina Video Security, Inc (CVSI) provides, installs and maintains commercial and industrial physical security systems including advanced surveillance, intrusion and access control. CVSI also develops specialized law enforcement solutions for interview recording, video arraignment and in-field forensic video capture. We solve challenging design, environmental and networking requirements and employ the most advanced -- proven and reliable -- technologies to help protect your employees, facilities and operations. We are experts in IP networking, wireless communications, information and physical security technology. Our staff have years of experience in video technology and wireless communications.

Our Solutions

- Commercial and Industrial Video Surveillance
- Access Control
- Intrusion Detection and Burglar Alarm Systems
- Video Conferencing Systems
- Interview Recording Systems
- Wireless Infrastructure
- Security Power Systems / Solar

Our Solutions

- Physical Site Security Consulting
- System Planning, Design and Implementation Professional Services
- 24/7 Intrusion Alarm Monitoring
